프레임을 만들고 화면 크기를 정함

The screenshot shows the Figma application window. On the left, there's a sidebar with library cards for 'iOS 18 + iPadOS 18 UI Kit', 'Material 3 Design Kit', and 'Simple Design System'. The main canvas is empty. On the right, the 'Prototype' tab is selected in the top navigation bar, and the 'Frame' section of the right sidebar is open, showing various device and wireframe options. A red box highlights the bottom-left corner of the canvas area, where a keyboard shortcut overlay is displayed. The overlay shows the key 'F' highlighted with a red border, indicating it's the key to press. Below the key are three other keyboard shortcuts: 'Section' (Shift+S), 'Slice' (S), and a zoom-in icon.

플러그인 설치(도구에서 선택)

플러그인 설치(페이지에서 선택)

The image consists of three side-by-side screenshots from the Figma application interface.

Screenshot 1: Contextual Menu (Left)
A screenshot showing a context menu for a selected element. The "Widgets" option is highlighted in blue, indicating it's the active category. Other options like "Copy", "Paste here", and "Manage widgets..." are also visible.

Screenshot 2: Marketplace Search (Middle)
A screenshot of the Figma Marketplace search results for "button". The "Plugins & widgets" tab is selected. The results show four items:

- Button - Open Links, Navigate Design**: A Widget by the community. It allows users to open links and navigate the design canvas in one click. It has 171k users and 721 likes.
- Button Generator**: A Plugin by the community. It generates buttons based on text input. It has 133k users and 459 likes.
- Button Buddy**: A Plugin by the community. It creates button components with two clicks. It has 82.9k users and 447 likes.
- CTA Buttons**: A Plugin by the community. It provides beautiful Call to Action buttons. It has 1 user and 0 likes.

Screenshot 3: Plugin Preview (Right)
A screenshot of a specific plugin preview titled "Button - Open Links, Navigate Design" by Aashrey Sharma. The preview shows a dark-themed button component with several action buttons: "Watch Video", "Open Slack Thread", "Open JIRA Ticket", and "Open Notion Doc". Below the preview, there's a detailed description of the plugin, including its purpose and recent activity (721 likes, 171k users). There's also a section titled "Open a webpage" with instructions on how to use the plugin to open webpages.

The screenshot displays a Figma prototype of a phonebook application. The interface consists of two main screens: a list view on the left and a detailed view on the right.

List View (Left):

- Header: 전체리스트
- Section: v 1
- Section: 상세보기
- Section: PHONEBOOK
- Item 1: Jane Cooper (406) 555-0120
- Item 2: Eleanor Pena (808) 555-0111
- Item 3: Arlene McCoy (704) 555-0127
- Item 4: Ronald Richards (217) 555-0113
- Item 5: Jacob Jones (270) 555-0117
- Item 6: Theresa Webb (229) 555-0109

Detailed View (Right):

- Header: 상세보기
- Section: PHONEBOOK
- Image: Profile picture of a man.

Interaction Panel (Right):

- Interaction: Tap → 상세보기
- Trigger: On tap
- Action: Navigate to
- Destination: 상세보기 (highlighted with a red box)
- Animation: Instant

Other UI Elements:

- Header: Share, Design, Prototype, 50%
- Section: Interactions
- Section: Scroll behavior
- Section: Position: Scroll with parent
- Section: Show prototype settings
- Section: Removing a connection
- Note: To delete a connection, click and drag on either end.

피그마를 활용한 웹페이지 화면 설계 실습

- 화면구조
- 전체리스트->상세리스트(수정, 삭제)
- 수정페이지 -> 수정화면
- 삭제페이지 -> 전체리스트화면

- 팀별 팀장을 정하고 하나의 피그마에 공유하여 개발

실습

The screenshots illustrate the contact management process in a mobile application:

- Contacts Screen:** Shows a list of contacts grouped by initial (A, B) and a search bar. Contact details include a profile picture, name, and phone number.
- Add Contact Screen:** A form for entering new contact information: Name, Phone Number, Email, and Address. Buttons for Cancel and Save are at the bottom.
- Contact Details Screen:** Shows the details for "Kim Minsoo", including a profile picture, mobile number, email, and address. Action buttons for Call, Message, and Delete are at the bottom.
- Edit Contact Screen:** Allows editing of existing contact information for "Kim Minsoo". Fields for Name, Phone Number, Email, and Address are present, along with Save and Cancel buttons.
- Delete Contact Screen:** A confirmation dialog asking if the user is sure they want to delete "Kim Minsoo". It shows a profile picture with a red warning triangle containing an exclamation mark. Buttons for Delete and Cancel are at the bottom.
